

ORACLE REPORTING (CLOUD AND ON-PREMISE SERVICES)

Solution IT helps Clients implement Oracle Reporting to provide instant access to information to all levels within and outside of the organization in a scalable and secure environment

Services provided (Cloud):

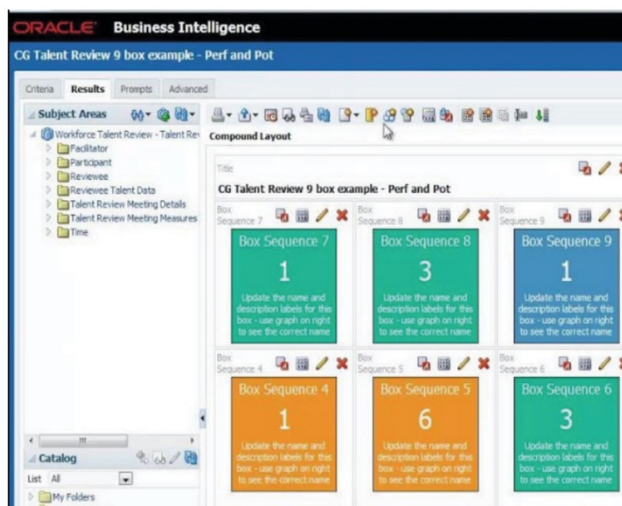

BIP (Oracle Business Intelligence Publisher): Creating Data sources like SQL Query, XML, Extract, View Object, etc. Authoring, managing, and delivering reports from multiple data sources in multiple formats through multiple channels.

OTBI (Oracle Transactional Business Intelligence): Providing real-time insight into transactional data, building OTBI reports using simple drag and drop features, subject areas and using different graphical views.

Services provided (On-Premise):

Oracle XML/BI Publisher: Creating template-based reports in Oracle E-Business Suite, leveraging standard technologies for data extraction and display

Oracle Reports: Rapidly developing and deploying sophisticated Web and paper reports in Oracle E-Business Suite, against any data source (including an Oracle database, JDBC, XML, and text files)

BUILD THE PERFECT TEAM
